SUMMARY

Passionate web developer with expertise in React.js and a strong foundation in full-stack development. Proficient in building scalable, responsive applications using TypeScript, Redux, React Query and MUI. Experienced in API integration. Eager to grow as a MERN stack developer and contribute to innovative projects. Available to join immediately.

WORK EXPERIENCE

SOFTWARE ENGINEER - REACTJS

Emproto Technologies PVT LTD

Jan 2024 - Dec 2024, Bengaluru, India

Reason for Leaving: company shutdown

- Contributed to the development of a React.js-powered real estate website using TypeScript, improving UI responsiveness and increasing user engagement by 20%.
- Developed and optimized 10+ reusable UI components using React.js, TypeScript, Bootstrap, and MUI, ensuring consistent styling and functionality across the platform.
- Gained exposure to integrating APIs using Axios and implementing state management with Redux, leading to a 15% reduction in API call failures.
- Explored form handling techniques with Formik and React Hook Form, improving form validation and reducing user input errors by 25%.

FULL STACK DEVELOPER - CORE PHP

Vinyasa Tech Solutions

Jan 2023 - Jan 2024, Mangaluru, India

Reason for Leaving: Tech stack restricted to core PHP (no React, TypeScript, or Node.js used).

- Successfully led the development and maintenance of multiple web applications, reducing bug reports by 30% through efficient debugging.
- Managed end-to-end deployment and maintenance of websites, ensuring 99% uptime and seamless functionality.
- Diagnosed and resolved technical issues, optimizing user experience and enhancing website performance by 40% through code optimization.

PYTHON WEB DEVELOPER - INTERNSHIP

Codelab Systems

Nov 2021 - Apr 2022, Mangaluru, India

- Built a full-stack app with Django and PostgreSQL, optimizing data retrieval by 30%.
- Developed RESTful APIs with Django Rest Framework, reducing API response time by 25%.
- Implemented auth, DTL, and server-side rendering to boost SEO and performance.
